Independent Auditor’s Report

To the Board of Directors of
FamilyAid Boston, Inc.:

Report on the Financial Statements

We have audited the accompanying financial statements of FamilyAid Boston, Inc. (a Massachusetts corporation, not for profit), which comprise the statements of financial position as of June 30, 2021 and 2020, and the related statements of activities and changes in net assets, cash flows and functional expenses for the years then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of FamilyAid Boston, Inc. as of June 30, 2021 and 2020, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

The accompanying notes are an integral part of these statements.
1. OPERATIONS AND NONPROFIT STATUS

FamilyAid Boston, Inc. (FAB) was incorporated in 1920. The mission of FAB is to assist those without a home and to prevent and help end homelessness in Massachusetts. FAB’s staff and volunteers work with and for vulnerable individuals and families to address their immediate and longer term housing and social support needs through direct service, preventive approaches, and advocacy.

FAB is exempt from Federal income taxes as an organization (not a private foundation) formed for charitable purposes under Section 501(c)(3) of the Internal Revenue Code (IRC). FAB is also exempt from state income taxes. Donors may deduct contributions made to FAB within the IRC regulations.

2. SIGNIFICANT ACCOUNTING POLICIES

FAB prepares its financial statements in accordance with generally accepted accounting standards and principles (U.S. GAAP) established by the Financial Accounting Standards Board (FASB). References to U.S. GAAP in these notes are to the FASB Accounting Standards Codification (ASC).

Cash

Management considers all highly liquid investments with an initial maturity of three months or less to be cash equivalents except for accounts held within the investment portfolio.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are recorded at the invoiced amount and do not bear interest. The allowance for doubtful accounts is based on management’s best estimate of the amount of probable credit loss in accounts receivable based on historical collections and other factors.

Investments

Investments (see Note 4) consist of FAB’s holdings of marketable securities held for purposes of financial returns. Investments are reported at fair value which are the market values provided by the investment manager based upon quoted prices for identical securities. Investment income includes interest, dividends and mutual fund distributions which are recorded when earned. Realized gains and losses on investment transactions are recorded based on the average cost method. Unrealized gains and losses are recognized based on fair value changes during the period. Investment income of all investment funds is available for operations and is therefore reflected in net assets without donor restrictions. Each year, the Board of Directors may budget a portion of total investment return for use in operations (see Note 3).

Property and Equipment and Depreciation

Property and equipment are recorded at cost when purchased or at fair value at the time of donation. Renewals and betterments are capitalized, while repairs and maintenance are expensed as incurred. Depreciation of property and equipment is computed using the straight-line method over the following estimated useful lives:

- Building and building improvements: 40 years
- Furniture and fixtures: 5 years
- Office equipment: 3 - 5 years

FAB accounts for the carrying value of its property and equipment in accordance with the requirements of ASC Topic, Property, Plant and Equipment. As of June 30, 2021 and 2020, FAB has not recognized any reduction in the carrying value of its property and equipment when considering this standard.
2. **SIGNIFICANT ACCOUNTING POLICIES** (Continued)

**Funds Held for Others**

Funds held for others represent funds held by FAB on behalf of its clients.

**Fair Value Measurements**

FAB follows the accounting and disclosure standards pertaining to ASC Topic, *Fair Value Measurements*, for qualifying assets and liabilities. Fair value is defined as the price that FAB would receive upon selling an asset or pay to settle a liability in an orderly transaction between market participants.

FAB uses a framework for measuring fair value that includes a hierarchy that categorizes and prioritizes the sources used to measure and disclose fair value. This hierarchy is broken down into three levels based on inputs that market participants would use in valuing the financial instruments based on market data obtained from sources independent of FAB. Inputs refer broadly to the assumptions that market participants would use in pricing the financial instrument, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the financial instrument developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity’s own assumptions about the assumptions market participants would use in pricing the asset developed based on the best information available.

The three-tier hierarchy of inputs is summarized in the three broad levels as follows:

- **Level 1** - Inputs that reflect unadjusted quoted prices in active markets for identical assets at the measurement date.

- **Level 2** - Inputs other than quoted prices that are observable for the asset either directly or indirectly, including inputs in markets that are not considered to be active.

- **Level 3** - Inputs that are unobservable and which require significant judgment or estimation.

An asset or liability’s level within the framework is based upon the lowest level of any input that is significant to the fair value measurement. All qualifying assets and liabilities are valued using Level 1 inputs.

**Estimates**

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue Recognition

In accordance with ASC Subtopic 958-605, Revenue Recognition, FAB must determine whether a contribution (or a promise) is conditional or unconditional for transactions deemed to be a contribution. A contribution is considered to be a conditional contribution if an agreement includes a barrier that must be overcome and either a right of return of assets or a right of release of a promise to transfer assets exists. If the condition and restriction are met in the same period they are reported as contributions without restrictions. Indicators of a barrier include a measurable performance-related barrier or other measurable barriers, a stipulation that limits discretion by the recipient on the conduct of an activity, and stipulations that are related to the purpose of the agreement. Topic 958 prescribes that FAB should not consider probability of compliance with the barrier when determining if such awards are conditional and should be reported as conditional grant advance liabilities until such conditions are met. See Note 13 for disclosure of FAB’s conditional grants as of June 30, 2021.

Revenues from program grants and contracts - government are recorded as the services are performed and costs are incurred. Revenues from grants and contributions without donor restrictions and United Way are recorded when received or unconditionally committed. Rental and other income is recorded when earned. Event contributions and support are recognized in the period in which the events occur.

FAB reports gifts of cash and other assets as support with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of activities and changes in net assets as net assets released from restrictions. Donor restricted contributions received and satisfied in the same period are included in net assets without donor restrictions.

Expense Allocation

Expenses related directly to a program are distributed to that program, while other expenses are allocated based upon management’s estimate of the percentage attributable to each program.

Certain categories of expenses are attributable to more than one program or supporting function and are allocated on a reasonable basis that is consistently applied. The expenses that are allocated are personnel and related costs, which are allocated on the basis of estimates of time and effort; occupancy costs and depreciation, which are allocated on a square footage basis; and supplies and telephone costs, which are allocated based on usage studies conducted annually.

Donated Services

FAB receives donated goods and services in various aspects of its programs. The value of these goods and services is reflected in the accompanying financial statements based upon the value assigned by the donor or a reasonable estimate determined by management. Donated goods and services consist of the following for the years ended June 30:

<table>

2. **SIGNIFICANT ACCOUNTING POLICIES** (Continued)

   **Advertising**
   
   FAB expenses advertising costs as they are incurred, which are shown as marketing expense in the accompanying statements of functional expenses.

   **Statements of Activities and Changes in Net Assets**
   
   Transactions deemed by management to be ongoing, major, or central to the provision of program services are reported as operating revenues and public support and operating expenses in the accompanying statements of activities and changes in net assets. Other revenues (expenses) include mainly endowment, capital and investment activity.

   **Income Taxes**
   
   FAB accounts for uncertainty in income taxes in accordance with ASC Topic, *Income Taxes*. This standard clarifies the accounting for uncertainty in tax positions and prescribes a recognition threshold and measurement attribute for the financial statements regarding a tax position taken or expected to be taken in a tax return. FAB has determined that there are no uncertain tax positions which qualify for either recognition or disclosure in the financial statements at June 30, 2021 and 2020. FAB’s information returns are subject to examination by the Federal and state jurisdictions.

   **Subsequent Events**
   
   As of November 29, 2021, which is the audit report date, there are no events that met the criteria for recognition or disclosure in the financial statements.

3. **NET ASSETS**

   **Net Assets Without Donor Restrictions**
   
   Net assets without donor restrictions are those net resources that bear no external restrictions and are generally available for use by FAB. FAB has grouped its net assets without donor restrictions into the following categories:

   - **Operating net assets** represent funds available to carry on the operations of FAB.
   - **Designated by the Board of Directors net assets** represent funds that bear no external restrictions but have been designated by the Board of Directors for the following purposes:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th>2020</th>
</tr>
</thead>
<tbody>
<tr>

<td>306,258</td>
</tr>
<tr>
<td></td>
<td><strong>$ 2,888,223</strong></td>
<td><strong>$ 2,344,452</strong></td>
</tr>
</tbody>
</table>

   These funds are included in investments (see Note 4) and may only be used with the approval of the Board of Directors. During fiscal years 2021 and 2020, $53,000 and $100,999, respectively, was withdrawn from the capital and other expenditures fund for operations (see page 13).

   - **Property and equipment net assets** reflect the net book value of FAB’s property and equipment, net of related debt.
3. **NET ASSETS (Continued)**

**Net Assets With Donor Restrictions**

Net assets with donor restrictions represent contributions received or pledged that have not yet been expensed for their designated purpose. Net assets with donor restrictions also include accumulated unspent appreciation and investment income on endowments. Included in net assets with donor restrictions are the following donor-restricted endowment funds (the restricted endowments):

- **Estate of Hannah Kimball Endowment**: Donor’s restrictions require that $1,000 of principal be held as a permanent source of income.
- **Estate of Mary Converse Endowment**: Donor’s restrictions require that $5,000 of principal be held as a permanent source of income.
- **Estate of Frank M. Ferrin Endowment**: Donor’s restrictions require that $5,000 of principal be held as a permanent source of income.
- **Priscilla Hunt Endowment**: Donor’s restrictions require that $160,000 of principal be held as a permanent source of income.

Net assets with donor restrictions consist of the following as of June 30:

<table>
<thead>
<tr>
<th></th>

</tr>
</tbody>
</table>

A portion of the program and capital grants is included in cash and investments in the accompanying statements of financial position.

Net assets were released from donor restrictions by incurring expenses, satisfying the restricted purposes, or other events specified by the donors as follows for the years ended June 30:

<table>
<thead>

3. **NET ASSETS (Continued)**

**Endowment Fund**

FAB follows the Uniform Prudent Management of Institutional Funds Act. Subject to the intent of a donor, FAB may appropriate for expenditure or accumulate so much of an endowment fund as FAB determines is prudent for the uses, benefits, purposes, and duration for which the endowment fund is established.

FAB has adopted investment policies for endowment assets that aim to establish the investment objectives, policies, guidelines, and eligible securities relating to any investments owned by FAB and identify the criteria against which the investment performance is measured. The investment goal is to achieve a total return (income and appreciation) of 5% after inflation, over a full market cycle. The investments are to be split between equity, fixed income, and money market funds to accomplish these goals. The benchmarks used in evaluating the performance of the funds will be the Standard and Poor’s 500 Index.

FAB’s Board of Directors has adopted an investment spending policy under which it may appropriate up to 5% of the average fair values of FAB’s investment portfolio over the previous thirty-six months. The Board of Directors may approve additional spending if the amount to be withdrawn is greater than 5% under the policy.

During fiscal years 2021 and 2020, the Board Designated investments were considered when approving the amount to be designated for operations. During fiscal year 2021, management withdrew $53,000 of the investment return designated for operations out of the fund designated for capital and other expenditures. During fiscal year 2020, management withdrew $28,024 of the investment return designated for operations out of the fund functioning as an endowment and the remaining balance of $100,999 was withdrawn from the fund designated for capital and other expenditures.

In accordance with *Accounting for Certain Investments Held by Not-for-Profit Organizations* standard and Massachusetts state law, appreciation on restricted endowments is included in net assets with donor restrictions. In fiscal years 2021 and 2020, the change in accumulated appreciation on restricted endowments was immaterial to the accompanying financial statements and, therefore, was recorded in net assets without donor restrictions.

4. INVESTMENTS (Continued)

The investments that relate to the Board designated funds functioning as endowment (see Note 3) are collateral for the note payable to a bank (see below). Investments are not insured and are subject to ongoing market fluctuations. Investments are classified as a long-term asset in the accompanying statements of financial position based on management’s intent to hold these investments for long-term purposes.

Investment return consists of the following:

<table>
<thead>
<tr>

A Board member of FAB is associated with the brokerage firm that handles FAB’s investment transactions. The Board member manages FAB’s portfolio, subject to oversight by the Board of Directors. FAB received and recognized $20,330 and $28,854 of management fees from the brokerage firm as donated services for the years ended June 30, 2021 and 2020, respectively, which are included in donated services and investment return (see Note 2), net of fees in the accompanying statements of activities and changes in net assets.

6. NOTE PAYABLE TO A BANK

FAB has a revolving line of credit agreement with a bank that provides for borrowing up to $1,000,000. Borrowings under the agreement are due on demand and interest is payable monthly at the London Interbank Offered Rate (LIBOR) Advantage Rate (0.85% and 0.55% at June 30, 2021 and 2020, respectively), plus 2.75%. The line of credit is secured by FAB’s investments (see Note 4) as defined in the agreement. There was no outstanding balance as of June 30, 2021 or 2020. FAB must meet certain covenants as specified in the agreement. FAB was in compliance with these covenants as of June 30, 2021 and 2020. This note is renewable annually.
## 7. Mortgage Notes Payable

FAB has entered into the following agreements to finance various properties:

<table>

</table>

Total | $378,403 | $379,653 |
9. RETIREMENT PLAN

FAB maintains an employee retirement plan that qualifies under IRC Section 403(b). FAB makes discretionary contributions to eligible employees’ retirement funds based on two percent of employees’ gross pay, plus an additional two percent for those eligible employees who contribute a minimum of two percent to their retirement fund. Employees are eligible when they reach twenty-one years of age and complete one year of service. Employees become vested after three years of participation. For the years ended June 30, 2021 and 2020, FAB contributed $85,182 and $65,048, respectively, to the retirement plan, which are included in employee benefits in the accompanying statements of functional expenses.

10. LEASE AGREEMENTS

Facility

Until October 2019, FAB leased its office space on Atlantic Avenue under the terms of an agreement which expired in September 2019. Rent was payable in monthly installments of $23,000, plus a proportionate share of increases in operating costs and real estate taxes. On October 1, 2019, FAB entered into a new lease agreement, which expires in September 2022. During fiscal year 2021, the lease was modified, which resulted in a lower monthly payment. Prior to the modification, monthly rent payments under the new lease were $18,460, payable in monthly installments. After the modification, the monthly rent payments under the new lease became $17,947, payable in monthly installments (plus a proportionate share of increases in operating costs and real estate taxes as applicable). FAB has incurred $215,195 and $236,002 of rent expense under these agreements for years ended June 30, 2021 and 2020, respectively.

Equipment

FAB leases equipment under an operating lease agreement which expires on February 28, 2023. FAB has incurred $21,847 and $11,901 of expenses under this agreement for the years ended June 30, 2021 and 2020, respectively.

Remaining minimum cash payments under these agreements are as follows for the fiscal years ending June 30:

These grants and contracts have been expended according to their respective terms and are subject to possible final audit determination by certain governmental agencies. In the opinion of management, no significant liability to FAB will result from any such audits.

Approximately 71% and 77% of accounts receivable, net at June 30, 2021 and 2020, respectively, are due from three donors.

12. CONCENTRATION OF CREDIT RISK

FAB maintains its cash balances in three banks in Massachusetts. The Federal Deposit Insurance Corporation insures balances at each bank up to certain amounts. At certain times during the year, the cash balances exceeded the insured amount. FAB has not experienced any losses in such accounts. FAB’s management believes it is not exposed to any significant credit risk on its cash.

13. CONDITIONAL GRANTS

During fiscal year 2021, FAB was awarded conditional grants in the amount of $1,144,998 for fiscal year 2022. As the grants are restricted by time and are conditional upon performance milestones, the conditions have not been met during fiscal year 2021, and the grants have not been recorded as revenue in the accompanying financial statements as of June 30, 2021.

During fiscal year 2020, FAB was awarded conditional grants in the amount of $881,142 for fiscal year 2021. As the grants are restricted by time and are conditional upon performance milestones, the conditions have not been met during fiscal year 2020 and the grants have not been recorded as revenue in the accompanying financial statements as of June 30, 2020.
13. **CONDITIONAL GRANTS** (Continued)

In April 2020, FAB applied for and was awarded a loan of $637,933 from the Paycheck Protection Program established by the Coronavirus Aid, Relief and Economic Security Act (CARES Act) through a bank. The funds were used to pay certain payroll costs, including benefits, as well as rent and utilities during the covered period as defined in the CARES Act. A portion of these funds may be forgiven, as defined in the agreement, at the end of the covered period and the remainder of the funds will be due over a two-year period with interest at 1%. Any repayment will be deferred for a period of ten months from the end of the covered period, when the note, plus interest, will be due in equal monthly payments through the maturity date as defined by the bank. The forgiveness calculation was subject to review and approval by the lending bank and the Small Business Administration (SBA). The loan was forgiven in fiscal year 2021.

FAB believes there is not more than a remote chance this loan will not be forgiven and, therefore, is accounting for it as a conditional grant under ASC Subtopic 958-605. It is determined that this grant is conditional upon certain performance requirements and the incurrence of eligible expenses within the covered period, which ended on June 12, 2020. Amounts received are recognized as revenue when FAB has incurred expenditures in compliance with the loan application and CARES Act requirements. In the opinion of management, FAB has substantially met the conditions of forgiveness as of June 30, 2020, and therefore, FAB recognized $637,933 of grant revenue, which is included in grants and contributions in the accompanying fiscal year 2020 statement of activities and changes in net assets.

14. **LIQUIDITY**

FAB’s financial assets available within one year from the statements of financial position date for general operating expenses as of June 30, 2021 and 2020, are as follows:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th>2020</th>

<tbody>
<tr>
<td>Cash</td>
<td>$1,034,386</td>

</tr>
<tr>

**Financial assets available to meet cash needs for general expenditures within one year**

FAB is substantially supported by restricted contributions. Because a donor’s restriction requires resources to be used in a particular manner or in a future period, FAB must maintain sufficient resources to meet those responsibilities to its donors. Thus, financial assets may not be available for general expenditure within one year. As part of FAB’s liquidity management, FAB has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations come due. There are funds established by the governing board that may be drawn upon in the event of financial distress or an immediate liquidity need resulting from events outside the typical life cycle of converting financial assets to cash or settling financial liabilities. In the event of an unanticipated liquidity need, FAB also could draw upon $1,000,000 of available line of credit (see Note 6).
15. CONTINGENCY

Coronavirus

During fiscal year 2020, COVID-19 was recognized as a global pandemic. Federal, state and local governments in the United States have imposed restrictions on travel and business operations. While the business disruption is currently expected to be temporary, there is considerable uncertainty around the duration and the impact it will have on FAB’s operations and financial position. As a result, the adverse impact COVID-19 will have on FAB’s businesses, operating results, cash flows, and financial condition is uncertain. It is management’s opinion that the adverse impact would not be material.
